R (1)

H EIR ESQ MA

Inspector General of Education in Mysore

To C S Balasundaram Iver. Esq . B ..

Offg Secretary to the Government of of H H the Maharaja of Mysore, General and Revenue Departments, Bangalore,

SIR,

2

I have the honour to recommend that a Training Class should be opened in the Normal school, Mysore for students who have passed the Matriculation Examination or at least appeared and failed for that Examination Under the new University Regulations Students are not allowed to appear more than three times for the Matriculation Examination and it is desirable to secure the services of some of these failed Matriculates for work in the Education Department The qualifications of many of the teachers in Anglo-Vernacular schools particularly in English are not good enough and it is hoped that in this a higher standard of proficiency will be attained

√ It is proposed to abolish the Lower Secondary Training class in the Normal school, and open an English Training class for a one year's course This would involve opening an Anglo-Vernacular school in connection with the present practising school The additional recurring expenditure involved is estimated at Rs 3393/- and the initial cost at Rs,1,200 If this amount is provided in the budget the class can be opened in June after the Summer holidays

3 A copy of a memorandum by the Head master of the Normal school

Bangalore 18th March 1911 ~~19~~

Edn 334-10

From

J. WEIR ESQ, M A

Inspector General of Education in Mysore

To C S Balasundaram Iyer, Esq , B A ,

Offg Secretary to the Government of of H H the Maharaja of Mysore, General and Revenue Departments, Bangalore,

SIR,

I have the honour to recommend that a Training Class should be opened in the Normal school, Mysore for students who have passed the Matriculation Examination or at least appeared and failed for that Examination Under the new University Regulations Student are not allowed to appear more than three times for the Matriculation Examination and it is desirable to secure the services of some of these failed Matriculates for work in the Education Department The qualifications of many of the teachers in Anglo-Vernacular schools particularly in English are not good enough and it is hoped that in this a higher standard of proficiency will be attained

It is proposed to abolish the Lower Secondary Training class in the Normal school, and open an English Training class for a one year's course This would involve opening an Anglo-Vernacular school in connection with the present practising school The additional recurring expenditure involved is estimated at Rs 3896/- and the initial cost at Rs,1,200 If this amount is provided in the budget the class can be opened in June after the Summer holidays

A copy of a memorandum by the Head master of the Normal school

School on the question of expense is forwarded herewith for information

Early orders are requested.

I have the honour to be,

Sir,

Your most obedient servant,

[signature]

A-Inspector General

T N R

Encl to Govt 334-10 Sl1.

Establishing a Higher Training class in the Normal school at Mysore

It would be convenient to start this in place of the present Lower Secondary Training class for, even as it is, the accommodation is insufficient and it will not be possible to find room for any additional class Consideration of expense also may favour this arrangement No disadvantage, however is likel to result from the abolition fo the Lower Secondary Training class as the two District Normal schools are now of the Lower Secondary grade and can well train the teachers of the Mysore an Hassan Districts, from which alone selections are made for the class at Mysore

2 The Higher training course may extend over one year Since it is intended to admit only students that have attained the Matriculation standard, there will be no need to make, as in the case of Upper Secondary students, any provision for general instruction inaddition to giving professional training The maximum number of students that can be trained in a year is 30, and the subjects of instruction are as fo-----

(i) Principlesa of Teaching and school Decipline,
(ii) Methods of Teaching and school organization,
(iii) Drawing including Black-board work,
(iv) Critism and model lessons,
(v) Nature study

3

The medium of teaching is to be English as there are greater facilities for imparting instruction through that language than through the Vernacular, for instance in the case of "Principl of Teaching"

3 If the Lower Secondary Training class be abolished no addition to the staff of the Normal school will be necessary fo conducting the Higher Training class With a slightly altered distribution of work, the present staff will be able to under-

undertake the teaching of subjects (i) to (iv) Seperate provision, however, has to be made for teaching subject (v) whose inclusion in the course is necessary if trained teachers are to be able to conduct nature lessons on approved lines It will be desirable for this purpose to employ a specialist -a graduate in Natural Science who can give practical instructionto students undertaking/training in a truly scientific spirit But a full-time teacher is not required for teaching this one subject, and I shall mention in the next paragraph what other work may be given to him

4

4 As students undertraining have to get practice in actual teaching and as methods taught to them have to be suitably demonstrated it is necessary to have Practising classes The present Practising school is a Vernacular one and has to be turned into an Anglo-Vernacular school if it has also to serve the purposes of a Higher Training class This change means the addition of two classes ~~of two classes~~ Further it has to be stated here, that the need for dividing the infant A class into two sections has long been felt Since admission to this class are made through-out the year and ~~the~~ since the age of children admitted varies from 4 to 7 or even 8 years considerable difficulty is experienced in maintaining evenness in class progress Splitting the class into two divisions will reduce this difficulty to a large extent and the addition of one more class to the lower school affords greater scope for demonstrating Kindergarden methods If advantage is taken of of the present opportunity for effecting this change, there will be another class added to the Practising school The total number of classes in it will thus be 10 and the school may be divided into two Branches -the purely Vernacular and the Anglo-Vernacular each containing 5 classes The 3 additional classes require three new teachers, two of whom should be English knowing (preferably Matriculates) This addition to the staff will give one full time teacher for each class With the increased importance of the Practising school, it will be necessary to have another teacher

as Head Master to look after the organisation and discipline of the school and to be responsible in the first instance, for its general efficiency Even now this need felt, as the present Head Master of the Practising school, who has to teach a class full-time is not able to exercise proper supervision over the whole school It is desirable to have a graduate for this new place on a salary of not less than Rs 50/- per month andif he be a graduate in natural Science, he may be utilised as has been stated above, for giving instruction in nature study to students under training, for some hours in the week His teaching work will be confined to this and he will devote the remaining time for general supervision of the Practising school In addition to the extra expenditure implied by the above changes, it will be necessary to increase the monthly contingent grant of the Practising school from Rs 8/- to 12/- and to appoint an additional peon on Rs 7/- There are now 2 peons and with so many new classes the need for the services of a third peon will arise, especially as one of them has to accompany young children both when they come to the school and when they return home

5 In the case of the Normal school, the following increased expenditure becomes necessary in this connection Provision has first to be made for awarding stipends to the 30 new students at Rs 10/- a month, which is the rate fixed for students joining Secondary Training Institutions in Madras The annual Library grant is now Rs 150/- and this has to be raised to Rs 250/- for purchasing up-to-date English books on Educational subjects There is at present no special provision for buying apparatus and appliances, such a provision is necessary for a normal Institution and a sum fo Rs 100/- per year has to be sanctioned under this head The only other increase is for giving a promotion of Rs 5/- to each of the two writers One of them is now getting Rs 20/- and the other Rs 15/- a month

6 Thus the addition to recurring expenditure will be -

(a) Normal school

			increase Total/for a year
(i)	Stipends for 30 students at Rs 10/-	300	
	Deduct savings on account of abolition of Lower Secondar Training class 26 x 5	130	
	Balance	Rs 170 per month	Rs 2,040
(ii)	Increase of Library grant		Rs 100
(iii)	Grant for Educational Appliances		Rs 100
(iv)	Increases of pay to Writers		Rs 120
			Rs 2,360

(b) Practising school

(i)	A Head master-Graduate in Natural Science on Rs 50	600
(ii)	3 Assistant masters -Rs 25-Rs 20-Rs 15	720
(iii)	1 Additional peon on Rs 7/-	84
(iv)	Increase of contingent grant	48
		Rs 1,452

Grand total of increase in recurring Expenditure Rs 3812

7 The following non-recurring expenditure will also have to be incurred before the starting of the new class --

(i)	Additional furniture to the Practising school	Rs 600
(ii)	Ditto ditto Normal school	Rs 300
(iii)	Special Library grant for purchasing Educational books in English	Rs 200
(iv)	Do for Educational appliances	Rs 100
		Rs 1,200

8 I have reserved to the last the question of providing accommodation for the additional Practising classes. The present building being already overcrowded, the classes cannot be held

held in it The necessary accomodation has to be found in one the three following ways --

I Erecting a building, measuring 60' x 20' in the compound of the Normal school, to the north of the main building This is the most satisfactory arrangement for the location of the new practising classes As the question of constructing a building for the Normal school, as a whole is under consideration, the above structure may be of a temporary character The walls may be of brick in mud and for the roofing may be used tiles made in the Industrial school here which are comparatively cheap Mr Y Asvatanarayana Rao, who I have consulted, states that a building of this description can be put up at a cost of Rs 1800/-

II The new classes may be located in the Deputy Commissioners Quarters a part of which is now being used for the Sloyd class There are three rooms available here Only, this building may be found to be inconveniently distant by some of the pupils attending the Practising school

III A house near the Normal school may be rented for the purpose No house in this locality is altogether suitable for a school Only an indifferent building can be found, for which a monthly rent of about Rs 30/- has to be provided This will add Rs 360/- to the recurring Expenditure

In the last two cases, there will also be a need for employing one more peon on Rs 7/- per mensem In the first case, the recurring expenditure will remain at Rs 3312/- but the non-recurring expenditure will come to Rs 1200 Rs 1800 = 3000

9 Rules for selecting students, details of the course of instruction and regulations for the Final Certificate Examination may all be determined after the scheme for Higher Training is sanctioned

OFFICE OF INSPECTOR GENERAL OF EDUCATION IN MYSORE

No 7049/516

Bangalore 6th March 1912

From

The *Inspector General of Education in Mysore*,

To

C S Balasundaram Iyer, Esq B.A.,
Offg Secretary to the Government of H H the Maharaja
of Mysore, General and Revenue Departments, Bangalore

I have the honour to inform you that in this office letter No 8002/630 dated 18th March 1911 proposals were submitted for the opening of an English Training class in connection with the Mysore Normal School at a total cost of Rs 5012/- including a recurring expenditure of Rs 3812/- and a non-recurring expenditure of Rs 1200/- Government were pleased to order the inclusion of a sum of Rs 4892/- for this purpose in the final State Budget as sanctioned in proceedings No Fl 544-87/G F 541-10-2 dated 5th August 1911 A lump sum addition of Rs 4892/- has accordingly been made in the current year's budget under 18 Education (6) Government Schools, Special

2 In the original scheme, one of the alternative proposals made for providing accommodation for the Anglo-Vernacular Classes to be opened in connection with the new English Training class was to utilise the building known as the Deputy Commissioner's Quarters in Mysore But as this building has been vacated and transferred to the Revenue Department for residential purposes as per Government Order No 5044-5/Edn 232-11-1 dated 13th February 1912, additional

accommodation

accommodation in some other manner has to be provided The Head Master now reports that no suitable buildings is available for rent in the neighbourhood of the Normal School For these reasons it will be necessary to put up, a temporary structure measuring 60' x 20' in the compound of the Normal School at a cost of Rs 1,800/- till the construction of the new building is taken up and completed As it is intended to open the English Training class from the beginning of the next term, the suggested temporary accommodation is absolutely necessary

3 In the original scheme it was also proposed to abolish the present Lower Secondary Training class chiefly with a view to cut down the additional expenditure as much as possible But on reconsideration it is thought desirable to retain the class, as it would be disadvantageous to close it without making some additions in the establishments of the two District Normal Schools at Kolar and Shimoga The retention of the class will however involve additional expenditure when the new English Training class is opened

4 For reasons stated in paras 2 and 3 the following extra expenditure will be necessary ---

		Annual
I	Non recurring expenditure	
	(a) Construction of a temporary structure for locating the Anglo-Vernacular Classes	Rs 1,800
	(b) Cost of erecting a room measuring 25'x 20' for the use of the English Training Class	Rs 1,000
	(c) Cost of additional furniture for the above class	Rs 200
	Total	Rs 3,000
II	Recurring expenditure	
	(a) One additional teacher for the English class who is an L T (preferably a Physical Science or Mathematics graduate) in class C'IV (50-10/2-100)	690
	(b) Scholarships for 20 Hindu teachers	

under training in the Lower Secondary Training class at Rs. 5/- each — Rs 1,200

Total Rs 1,800

Total of I and II — Rs,4,800

At present 26 scholarships are allotted to the Lower Secondary Training class, of which 6 are awarded to Mahomedan teachers As the number of Urdu teachers to be trained is small and as the two District Normal Schools train Urdu teachers of the Lower Secondary grade, there does not seem to be any necessity for maintaining a Hindustani Lower Secondary Training class in Mysore Consequently provision has been solicited for only 20 stipendiary students in this class, the remaining ten places being filled in by non-stipendiary private students who will also be available for employment in the Education Department after they pass through their training course

5 Under the circumstances I request that Government be pleased to sanction the extra expenditure now proposed and order its inclusion in the ensuing year's budget

As it is intended to start the new English Training Class during the next term the favour of early orders is solicited in order to enable the Department to make suitable arrangements in time

I have the honour to be

Sir,

Your most obedient servant

S Krishnaswamy Aiyangar

Assistant to the Inspector General of Education,

SUBJECT

in March 1911
for ~~opening~~ opening an English Training
class, ~~on 2 March 1911~~, in the Normal School Mysore,
~~sanction was the current~~
~~year's budget~~ and a sum of Rs 4892
was ~~accordingly~~ made in the current year's budget
But the Scheme ~~could~~ was not ~~be~~
carried out ~~for lack of sufficient time~~ as it was subsequently found to require certain modifications and also because there was not sufficient time
to open the class ~~and as it required~~
~~certain modifications~~. The D.I has
now submitted a revised Scheme
~~on the subject~~, the chief modification
being the retention of the Lower Secondary
Training class which was originally
proposed to be abolished. ~~- - - - -~~

The Govt ~~after giving~~ have given the matter
their careful consideration and are of opinion
that the opening of a higher training
class as recommended by the D.I of
Edn is necessary; ~~and they~~ They are accordingly pleased
to approve of the Scheme, ~~and~~ the
following charges are sanctioned in
connection therewith :—

GRS 27]

GENERAL AND REVENUE SECRETARIAT

(Continuation sheet draft form)

Recurring charges		cost per annum Rs
(a) Normal School		
1 An additional teacher on	Rs 50 p.m.	600
2 Stipends for 30 sh. each (~~70~~ 51 @ Rs each		~~3600~~/800
3 Increase of Library grant		100
4 Grant for additional appliances		100
(b) Practising School		
1 One Head Master on Rs.	50 p.m.	600
2 Three Asst Masters on Rs.	25 20 + 15	720
3 Additional peon on Rs	7	84
4 Increase of contingencies		48
Total		~~5852~~ 4052

~~4400~~ 2600 ✗

1452

Non-recurring charges		
a) Additional furniture for the Practising School		800
Ditto for the Normal School		300
Special Library grant		200
Special grant for Educational appliances		100
b) Buildings		1400
Temporary building for the A - V classes		1800
A room for the English Training class		1000
Total		4200

2800

2 Against the recurring expenditure of Rs ~~5852~~ 4052 there will be a saving of Rs 360 on account of

the reduction of the no of stipends in the Govt Secondary Training class from ~~27~~ 26 to 20 at Rs 5 each per mensem. Thus the recurring expenditure will stand at (~~5852~~ 4052 - 360) Rs ~~5492~~ 3692

Out of the non-recurring expenditure of Rs 4200, Rs 1400 has been provided in the Edn budget and Rs 2800 on account of buildings in the PWD budget

3 Govt are accordingly directed that a sum of Rs. ~~6892~~ 5092 (~~5492~~ 3692 + 1400) be included in the Edn budget for 1912-13. As regards buildings to be put up a sum of Rs 2800 will be included in the PWD budget for 1912-13, and the Chf Engr is requested to arrange for their construction in consultation with the DI of Edn.

Proceedings of the Government of His Highness the Maharaja of Mysore

READ—

The following letters from the Inspector General of Education in Mysore submitting proposals for opening an English Training Class in the Normal School Mysore —

(1) No 8002 630 dated 13th March 1911
(2) No 7049 516 dated 6th March 1912

No 8002 630 dated 18th March 1911 from J Weir Esq M A Inspector General of Education in Mysore to C S Balasundaram Iyer Esq B A Officiating Secretary to the Government of His Highness the Maharaja of Mysore General and Revenue Departments

I have the honor to recommend that a Training Class should be opened in the Normal School Mysore for students who have passed the Matriculation Examination or at least appeared and failed for that Examination Under the new University Regulations Students are not allowed to appear more than three times for the Matriculation Examination and it is desirable to secure the services of some of these failed Matriculates for work in the Education Department The qualifications of many of the teachers in Anglo Vernacular schools particularly in English are not good enough and it is hoped that in this a higher standard of proficiency will be attained

2 It is proposed to abolish the Lower Secondary Training Class in the Normal School and open an English Training Class for a one year's course This would involve opening an Anglo Vernacular School in connection with the present practising school The additional recurring expenditure involved is estimated at Rs 3 896 and the initial cost at Rs 1 200 If this amount is provided in the budget the class can be opened in June after the summer holidays

3 A copy of a memorandum by the Head Master of the Normal School on the question of expense is forwarded herewith for information

Early orders are requested

(*Enclosure*)

ESTABLISHING A HIGHER TRAINING CLASS IN THE NORMAL SCHOOL AT MYSORE

It would be convenient to start this in place of the present Lower Secondary Training Class for even as it is the accommodation is insufficient and it will not be possible to find room for any additional class Consideration of expense also may favour this arrangement No disadvantage however is likely to result from the abolition of the Lower Secondary Training Class as the two District Normal Schools are now of the Lower Secondary grade and can well train the teachers of the Mysore and Hassan Districts from which alone selections are made for the class at Mysore

2 The Higher training course may extend over one year Since it is intended to admit only students that have attained the Matriculation standard there will be no need to make as in the case of Upper Secondary students any provision for general instruction in addition to giving professional training The maximum number of students that can be trained in a year is 30 and the subjects of instruction are as follows —

(i) Principles of teaching and school discipline
(ii) Methods of teaching and school organization
(iii) Drawing including black board work
(iv) Criticism and model lessons
(v) Nature study

The medium of teaching is to be English as there are greater facilities for imparting instruction through that language than through the Vernacular as for instance in the case of Principles of Teaching

3 If the Lower Secondary Training class be abolished no addition to the staff of the Normal School will be necessary for conducting the Higher Training Class With a slightly altered distribution of work the present staff will be able to undertake the teaching of subjects (i) to (iv) Separate provision however has to be made for teaching subject (v) whose inclusion in the course is necessary if trained teachers are to be able to conduct nature lessons on approved lines It will be desirable for this purpose to employ a specialist a graduate in Natural Science who can give practical instruction to students under training in a truly scientific spirit But a full time teacher is not required for teaching this one subject and I shall mention in the next paragraph what other work may be given to him

4 As students under training have to get practice in actual teaching and as methods taught to them have to be suitably demonstrated it is necessary to have practising cla

The present practising school is a vernacular one and has to be turned into an Anglo Vernacular school if it has also to serve the purposes of a Higher Training class This change means the addition of two classes Further it has to be stated here that the need for dividing the infant A class into two sections has long been felt Since admissions to this class are made throughout the year and since the age of children admitted varies from 4 to 7 or even 8 years considerable difficulty is experienced in maintaining evenness in class progress Splitting the class into two divisions will reduce this difficulty to a large extent and the addition of one more class to the lower school affords greater scope for demonstrating kindergarten methods If advantage is taken of the present opportunity for effecting this change there will be another class added to the practising school The total number of classes in it will thus be ten and the school may be divided into two branches the purely Vernacular and the Anglo Vernacular each containing five classes The three additional classes require three new teachers two of whom should be English knowing (preferably Matriculates) This addition to the staff will give one full time teacher for each class With the increased importance of the practising school it will be necessary to have another teacher as Head Master to look after the organisation and discipline of the school and to be responsible in the first instance for its general efficiency Even now this need is felt as the present Head Master of the practising school who has to teach a class full time is not able to exercise proper supervision over the whole school It is desirable to have a graduate for this new place on a salary of not less than Rs 50 per month and if he be a graduate in natural science he may be utilised as has been stated above for giving instruction in nature study to students under training for some hours in the week His teaching work will be confined to this and he will devote the remaining time for general supervision of the practising school In addition to the extra expenditure implied by the above changes it will be necessary to increase the monthly contingent grant of the practising school from Rs 8 to 12 and to appoint an additional peon on Rs 7 There are now two peons and with so many new classes the need for the services of a third peon will arise especially as one of them has to accompany young children both when they come to the school and when they return home

5 In the case of the Normal School the following increased expenditure becomes necessary in this connection Provision has first to be made for awarding stipends to the thirty new students at Rs 10 a month which is the rate fixed for students joining Secondary Training Institutions in Madras The annual Library grant is now Rs 150 and this has to be raised to Rs 250 for purchasing up to date English books on Educational subjects There is at present no special provision for buying apparatus and appliances such a provision is necessary for a Normal Institution and a sum of Rs 190 per year has to be sanctioned under this head The only other increase is for giving a promotion of Rs 5 to each of the two writers One of them is now getting Rs 20 and the other Rs 15 a month

6 Thus the addition to recurring expenditure will be —

		Increase Total for a year Rs
(*a*) Normal School—		
(i) Stipends for 30 students at Rs 10	300	
Deduct savings on account of abolition of Lower Secondary Training Class 26 × 5	130	
Balance Rs	170 per month	2 040
(ii) Increase of library grant		100
(iii) Grant for Educational Appliances		100
(iv) Increases of pay to writers		120
		2 360
(*b*) Practising School—		
(i) A Head Master— a graduate in Natural Science on Rs 50		600
(ii) Three Assistant masters on Rs 25 Rs 20 Rs 15		720
(iii) One additional peon on Rs 7		84
(iv) Increase of contingent grant		48
		1 452
Grand Total of increase in recurring Expenditure		3 812

Local Fund and Sanitary (Education) dated 17th May 1912

7 The following non recurring expenditure will also have to be incurred before the starting of the new class —

	Rs
(i) Additional furniture to the practising school	600
(ii) Do do Normal School	300
(iii) Special Library grant for purchasing Educational books in English	200
(iv) Special Library grant for Educational appliances	100
Total	1 200

8 I have reserved to the last the question of providing accommodation for the additional practising classes The present building being already overcrowded the classes cannot be held in it The necessary accommodation has to be found in one of the three following ways —

I Erecting a building measuring 60 × 20 in the compound of the Normal School to the north of the main building This is the most satisfactory arrangement for the location of the new practising classes As the question of constructing a building for the Normal School as a whole is under consideration the above structure may be of a temporary character The walls may be of brick in mud and for the roofing may be used tiles made in the Industrial school here which are comparatively cheap Mr Y Asvathanarayana Rao whom I have consulted states that a building of this description can be put up at a cost of Rs 1 800

II The new classes may be located in the Deputy Commissioner s quarters a part of which is now being used for the Sloyd class There are three rooms available here Only this building may be found to be inconveniently distant by some of the pupils attending the practising school

III A house near the Normal School may be rented for the purpose No house in this locality is altogether suitable for a school Only an indifferent building can be found for which a monthly rent of about Rs 30 has to be provided This will add Rs 360 to the recurring expenditure

In the last two cases there will also be a need for employing one more peon on Rs 7 per mensem In the first case the recurring expenditure will remain at Rs 3 812 but the non recurring expenditure will come to Rs 1 200+Rs 1 800=3 000

9 Rules for selecting students details of the course of instruction and regulations for the Final Certificate Examination may all be determined after the scheme for Higher Training is sanctioned

— — —

No 7049—516 dated 6th March 1912 from the Inspector General of Education in Mysore to C S Balasundaram Iyer Esq B A Offg Secretary to the Government of His Highness the Maharaja of Mysore General and Revenue Departments

I have the honor to inform you that in this office letter No 8002—630 dated 18th March 1911 proposals were submitted for the opening of an English Training class in connection with the Mysore Normal School at a total cost of Rs 5 012 including a recurring expenditure of Rs 3 812 and a non recurring expenditure of Rs 1 200 Government were pleased to order the inclusion of a sum of Rs 4 892 for this purpose in the final State Budget as sanctioned in Proceedings No Fl 544 87—G F 541 10 2 dated 5th August 1911 A lump sum addition of Rs 4 892 has accordingly been made in the current year s budget under 18 Education (6) Government Schools special

2 In the original scheme one of the alternative proposals made for providing accommodation for the Anglo Vernacular Classes to be opened in connection with the new English Training Class was to utilize the building known as the Deputy Commissioner s quarters in Mysore But as this building has been vacated and transferred to the Revenue Department for residential purposes as per Government Order No 5644 5—Edn 232 11 1 dated 13th February 1912 additional accommodation in some other manner has to be provided The Head Master now reports that no suitable building is available for rent in the neighbourhood of the Normal School For these reasons it will be necessary to put up a temporary structure measuring 60 × 20 in the compound of the Normal School at a cost of Rs 1 800 till the construction of the new building is taken up and completed As it is intended to open the English Training Class from the beginning of the next term the suggested temporary accommodation is absolutely necessary

3 In the original scheme it was also proposed to abolish the present Lower Secondary Training class chiefly with a view to cut down the additional expenditure as much as possible But on reconsideration it is thought desirable to retain the class as it would be disadvantageous to close it without making some additions in the establishments of the two District Normal Schools at Kolar and Shimoga The retention of the class will however involve additional expenditure when the new English Training class is opened

4 For reasons stated in paras 2 and 3 the following extra expenditure will be necessary —

I Non recurring Expenditure —

	Rs
(*a*) Construction of a temporary structure for locating the Anglo Vernacular Classes	1 800
(*b*) Cost of erecting a room measuring 25 × 20 for the use of the English Training Class	1 000
(*c*) Cost of additional furniture for the above class	200
Total I	3 000

II Recurring Expenditure —

	Annual
(*a*) One additional teacher for the English class who is an L T (preferably a Physical Science or Mathematics graduate) in class C IV (50 10—2 100)	600
(*b*) Scholarships for 20 Hindu teachers under training in the Lower Secondary Training Class at Rs 5 each	1 200
Total II	1 800
Total of I and II	4 800

At present 26 scholarships are allotted to the Lower Secondary Training class of which 6 are awarded to Mahomedan teachers As the number of Urdu teachers to be trained is small and as the two District Normal Schools train Urdu teachers of the Lower Secondary grade there does not seem to be any necessity for maintaining a Hindustani Lower Secondary Training Class in Mysore Consequently provision has been solicited for only 20 stipendiary students in this class the remaining 10 places being filled in by non stipendiary private students who will also be available for employment in the Education Department after they pass through their training course

5 Under the circumstances I request that Government be pleased to sanction the extra expenditure now proposed and order its inclusion in the ensuing year s budget

As it is intended to start the new English Training Class during the next term the favor of early orders is solicited in order to enable the Department to make suitable arrangements in time

No 8676 8—Edn 334 10 5, dated Bangalore, 17th May 1912

Order thereon —The Inspector General of Education having submitted certain proposals in March 1911 for opening an English Training Class in the Normal School, Mysore, a provision of Rs 4 892 was made in the current year s budget But the scheme was not carried out as it was subsequently found to require certain modifications and also because there was not sufficient time to open the class The Inspector General has now submitted a revised scheme, the chief modification being the retention of the Lower Secondary Training class which was originally proposed to be abolished

The Government have given the matter their careful consideration and are of opinion that the opening of a Higher Training Class as recommended by the Inspector General of Education is necessary They are accordingly pleased to approve of the scheme, and the following charges are sanctioned in connection therewith —

Local Fund and Sanitary (Education) dated 17th May 1912

Recurring charges—	Cost per annum Rs		
(*a*) Normal School—			
1 An additional teacher on Rs 50 per mensem	600		
2 Stipends for 30 students at Rs 5 each	1 800		
3 Increase of Library grant	100		
4 Grant for additional appliances	100		
		2 600	
(*b*) Practising School—			
1 One Head Master on Rs 50 per mensem	600		
2 Three assistant masters on Rs 25 20 and 15	720		
3 Additional peon on Rs 7	84		
4 Increase of contingencies	48		
		1 452	
Total		4 052	
Non recurring charges—			
(*a*) Additional furniture for the practising school	800		
Do for the Normal school	400		
Special library grant	200		
Special grant for Educational appliances	100		
		1 400	
(*b*) Buildings—			
Temporary building for the Anglo Vernacular Classes	1 800		
A room for the English Training Class	1 000		
		2 800	
Total		4 200	

2 Against the recurring expenditure of Rs 4 052 there will be a saving of Rs 360 on account of the reduction of the number of stipends in the Lower Secondary Training Class from 26 to 20 at Rs 5 each per mensem Thus the recurring expenditure will stand at (4 052—360) Rs 3 692 Out of the non recurring expenditure of Rs 4 200 Rs 1 400 has to be provided in the Education budget and Rs 2 800 on account of buildings in the Public Works Budget

3 Government accordingly direct that a provision of Rs 5 092 (3 692+1 400) be included in the Education budget for 1912 13 As regards buildings to be put up a provision of Rs 2 800 will be included in the Public Works budget for 1912 13 and the Chief Engineer is requested to arrange for their construction in consultation with the Inspector General of Education in Mysore
